

# V7 - DESKTOP

The Dencon V7 range of desks is a unique solution, where design and function are incorporated to suit dynamic requirements in offices of the present and future. Human-centred design is the focus of all aspects of the design, so the desk is both pleasing to the eye and comfortable on the body. Plus, the V7 range also incorporates the latest technology.

Sitting/standing desk with built-in control panel in the tabletop and with easy access to the cable tray via a table leaf along the entire width of the desk. The cable tray is available in black, white and aluminium. The tilt of the table leaf is secured with a safety lock. The opening has black brushes making it easy to guide the cables to where you want them. The V7 name came about because of the angled frame.

## Veneer

## HPL (High Pressure Laminates)

## Soft HPL

## Linoleum colors
