RF-150
USB RFID READER

TimeMoto's portable USB RFID reader enables you to register a new RFID card right at your PC, instead of at a time clock terminal. Just open your TimeMoto PC software, register the new card and assign it to the desired employee—all without leaving your desk. Within minutes, your employee can use his or her new RFID card to clock in and out at any terminal within your network, even at remote locations.

- USB reader for RFID cards
- Reads 125KHz RFID cards and key fobs

- Activate RFID cards directly at your PC

- USB connection cable included

USB reader for RFID cards and fobs

Small footprint, fits on any desk

Activate RFID cards directly at your PC
