

STREAM DESKTOP RECHARGE

The best STREAM ever as a wireless premium version with charging function.

CHERRY 

Models may vary from the image shown

The STREAM DESKTOP RECHARGE is the premium version of the successful STREAM DESKTOP. The design of the wireless set looks confusingly similar, yet it is worth a closer look. New features include rechargeable and replaceable batteries. What is also new is that the wireless mouse now also has AES encryption and not just the keyboard.

The STREAM DESKTOP RECHARGE is based on our very own SX scissor technology. The unmistakable CHERRY writing experience is created by the precise keystroke of the quiet PC keyboard. This lays the foundation for a productive working day with low noise levels.

The 6-key mouse, which also has extremely quiet buttons, is an excellent match. The size and shape are equally suitable for large and small hands. The resolution and therefore also the speed can be adjusted in 3 steps via a DPI switch. The two thumb buttons for browser navigation are especially helpful.

If you value ease of use, STREAM DESKTOP RECHARGE is right for you. The computer mouse and keyboard can be recharged even while you continue to work uninterrupted. The USB-C cable and the high-quality GP ReCyko+ rechargeable batteries are included in delivery. Unlike most keyboard-mouse sets on the market, there are no

permanently installed lithium cells in this desktop. The NiMH batteries used here can be easily exchanged if necessary. Let's be honest – a CHERRY keyboard usually lasts longer than any rechargeable battery.

Encryption is a very important factor if you work with sensitive data. This set is equipped with AES-128 (Advanced Encryption Standard). Keystrokes and mouse movements are encrypted 128-bit CCM encryption before they are transmitted. The status LEDs integrated in the keys are also highly practical. They indicate whether the shift key, scroll key or Num-Lock key is activated or whether charging is necessary. To ensure that the rechargeable batteries are still charged after a holiday, the keyboard and mouse can be switched off completely with a switch.

You can attain a maximum of flexibility with the optional CHERRY KEYS software. This application enables you to configure your keyboard and mouse according to your individual requirements. The 10 additional keys are also very practical: Windows lock, browser, mail, calculator and 6 keys to control volume and multimedia applications.

As with all members of the STREAM family, The STREAM DESKTOP RECHARGE is reinforced with a metal plate for maximum stability. The keyboard has a long range and also has eight rubber pads and rubberized feet on the back. This ensures the highest levels of stability. The mouse is of similar quality. It fits stably and securely in your hand and yet glides effortlessly across the table.

The desktop set bears the "Safety Tested" GS seal, which means it complies with all relevant European directives and regulations on safety and ergonomics.

The new wireless desktop set from CHERRY combines all the popular features of the million-selling STREAM KEYBOARD and expands them with wireless technology and a charging concept. Are you looking for a solid, resilient and durable companion for professional or private use? Then the STREAM DESKTOP RECHARGE is the right choice for you.

FUNCTION AND PERFORMANCE

- Super silent keystroke
- CHERRY SX scissor mechanism
- Mouse buttons with a quiet click
- 3-level adjustable mouse sensor with up to 2,400 dpi
- Rubberized feet for perfect slip resistance
- Integrated metal plate for maximum torsional rigidity
- Durable key labels
- Keyboard and mouse with AES-128 encryption
- NiMH batteries rechargeable via USB-C (GP ReCyko+) in mouse and keyboard
- Status LEDs show low residual battery charge, charging status and mouse resolution
- Additional status LEDs for the CAPS LOCK, NUM and SCROLL keys
- Keyboard with 10 office & multimedia keys
- 6 mouse buttons and scroll wheel
- Low height
- GS certificate (full size layout)
