

Environmental Product Sheet

Lynderup Chair Seat upholstered, 3081

DESIGN STORY OF THE PRODUCT

The Lynderup chair is a flexible stacking chair for collaboration spaces, auditoriums, cafés and commercial settings. Lynderup is a flexible stacking chair with plywood shells, designed by Børge Mogensen in 1954. The Lynderup chair is eco-labelled and was, when introduced in 2021, adapted with circular design principles. Thus all components are interchangeable and can be renewed separately as needed.

COMPANY DESCRIPTION

Since 1911 the core of Fredericia's company ethics has been to encouraging customers to buy fewer but better products. With the ultimate goal of creating furniture's that become more beautiful with age and can be passed from generation to generation. These core values are rooted in our sense of responsibility, seen in our use of natural materials, our ethical methods of production and our respect for the people using our furniture every day.

SUPPLIER SUPPORT

Through our ongoing implementation of Sustainable supplier selection and Code of Conduct, we ensure that our suppliers meet our conditions regard to human rights and environmental standards among other things.

DESIGN FOR ENVIRONMENT CRITERIA

In the phase of developing new products or re-engineering existing products Fredericia Furniture follows the below listed principles:

- Timeless design
- Long material lifetime
- Crafted to last
- Easing disassembly of products to increase circularity and ease repair of broken parts
- Increase the use of recycled materials

MATERIALS

Stacking chair with steel tube frame and upholstered seat. Interchangeable back finished with water-based lacquer. Plywood has beech core with ash, oak or walnut top veneer. Interchangeable seat pad upholstered in HR or CMHR foam with fixed cover in fabric or leather. Frame of powder coated or chromed tubular steel. Mounted with interchangeable plastic glides. Separate felt glides included.

ENVIRONMENTAL DATA

The whole product incl. packaging material

Recycled content: 11 %

Virgin content: 89 %

LIFE CYCLE ASSESSMENT DATA

The Climate footprint = 55 kg of CO₂e in a product screening validated by the danish company, Målbar. This result is based upon the lowest emitting variant of the model and is Målbar's estimate on the outcome within the boundaries of 35 - 80 kg of CO₂e.

The CO₂e accounts for carbon dioxide and other gases e.g., methane and nitrous oxide. The screening complies with the European LCA-rules PEF (Product Environmental Footprint) meaning that it covers the whole product life cycle incl. extrusion of raw materials to end-of-life handling.

TEST & CERTIFICATES

EU Ecolabel variants: Chrome or black powder-coated frame together with black shell, HR foam and upholstery in Omni leather 301 black or Connect, Remix, Re-wool fabric

FSC® certified

EN 1022:2005, EN 16139:2013 (L1)

WARRANTY

Fredericia Furniture A/S offers a 7-year guarantee against manufacturing defects in standard products (materials and construction). The warranty does not cover wear and damage to covers, surface treatment, inappropriate use and the like.

For further information regarding our guarantee, please visit [Fredericia.com](https://www.fredericia.com).

DISCLAIMER

The Climate footprint assessment is based upon delivery to an average EU customer and a 15-year lifetime. Be aware of the variety of assumptions when comparing different life cycle assessments from different companies as the level of detail can vary.

This document is not third-party validated, and the communication is only intended for B2B customers.

Content Declaration

The charts below describe the materials used in the product.

MATERIAL	MASS [KG]	SHARE	CONTENT
Steel	2.92	40%	Virgin
